Monty's Principles

Horse Sense for People

The Courage to Make a Change

I wanted to tell you all about the week I just had. After I returned home from Monty's Riding with Respect clinic at Flag Is Up Farms, I went by the barn the next day to check on Frenchie. My trainer was there and said "so I guess your clinic was a bust... I told you it was a waste of time". I replied that the clinic was the best thing I ever did, both for me and Frenchie, and that it seemed as if I gleaned a lot more knowledge then what could possibly be given in 3 days.

She then asked me not to be talking about these "so called techniques" with her other students. I was offended to say the least. Many of the other students asked about my experience and I was happy to share. I then went

This Week's Question and Answer

Who are your heroes now? I read your books and followed your career. You seem to have met many influential persons over the years. In retrospect who do you look up to now?

Monty's Answer: In the past 15 years since my first book I have written extensively about individuals that I considered heroes during the course of my upbringing. Setting aside the horses that I considered my ultimate heroes as well as Sister Agnes Patricia, my 8th grade teacher, I will confine my comments to those that were outside of what I would call the immediate family. The horses and Sister Agnes Patricia were as close to me as any brothers and sisters could have been.

As a child doing stunt work for the motion picture industry I certainly looked up to the likes of John Wayne Joel McCrea, Jeff Chandler, John Huston, and Elia Kazan. While James Dean was in my life intensely, it was unfortunately for a short period of time. I think my primary heroes during my youth were competition horsemen; Clay Carr, John Bowman, Gene Rambo, Jimmy Williams and Barbara Worth to name a few.

As I neared adulthood I found my hero core moving to a more cerebral group. I reached out to admire global heroes like Gandhi along with university professors such as Dr. Applegarth and William Gibford. Looking back on my evolving listed influences I hold all these memories as being critically important to my development. In recent years however I have found my allegiance to human individuals shifting significantly.

It must be about 12 years now since I opened my eyes to the fact that if my life's goal is to leave the world a better place for horses and for people too, then I should be shifting my hero attention to those who are working to affect progress in that area. I have awakened to the fact that this role is currently being filled by the generous students that are investing their lives to the effort of learning my concepts and passing them on.

It is the legions of people who read my books, watch my DVDs, enroll in my courses and study my Equus Online University that eventually will be responsible for causing my life's goal to be accomplished. I now know that it will not be possible to fully achieve my life's goal in my own lifetime. I believe it will be the next generation that will cause my concepts of violence-free training to be

back to the barn on Wednesday and told my trainer that anyone who rode on Frenchie was not allowed to use a whip or bat and that I had a new bit for her. She refused to follow my instructions so on Sunday I moved my horse to a new barn. Once I left six other students left too.

They all want to take a Monty Roberts clinic and thanked me for giving them the courage to make the change. I spoke to the trainers at the new barn (before I moved Frenchie), told them what my philosophies were and that I no longer wanted my horse to be a "lesson horse". I also said that I wanted no negative feedback about my clinic and what I learned, as I was sure that I would return for more clinics with Monty Roberts in the future.

They were so enthusiastic that I was willing to learn more about my horse and cared about her. So far Frenchie is more calm and peaceful than I have ever seen her. Once her phobia, she now lets anyone who approaches her correctly, pick up her feet. And anytime I go near her feet she just lifts them up without me having to ask.

This is probably more information than you all needed, but I am so proud to have put my horse first that I had to share.

Marcia (student in the Riding with Respect clinic Aug. 2010)

considered normal, not me personally.

It is with this communication that I would like to announce to the world that I have a whole new family of heroes out there. There are thousands of individuals who have dedicated the balance of their life to the education of my concepts. They are the shepherds of my life's goal just as surely as they can put it in a container and carry it over the next several decades causing the world to see the extreme need for change the horse industry has needed for thousands of years.

For 9 year olds and up!
I'M SHY BOY, Here's My Story
Interpreted by Monty Roberts
Illustrations by Sisko Tahon-Raulo and Phillipa "Millie" Raulo
SHY BOY SPEAKS!
I'm Shy Boy is the story of Monty Roberts' mustang companion, beginning before he was adopted. His tale begins in the Nevada mountains, where Shy Boy was born into a wild herd of horses. Seeing the world through the eyes of a horse, you experience his first encounters with the humans who capture him. His surprise at meeting Monty, a man who moves and speaks like a horse, develops into a bond of trust that will last a lifetime. Shy Boy begins an ongoing

adventure to bring non-violence and communication into people's lives, and to allow them to treat their horses with respect and understanding. Shy Boy and Monty live on Flag Is Up Farms in California, where they continue their adventures together and fulfill Monty's mission, "To leave the world a better place than I found it for horses and for people too." You can order it on www.montyroberts.com!

Beautifully illustrated, for young people of all ages. For more information:

Challenge Yourself!
I want all of my students to learn to be better trainers than me! Test yourself each week as I challenge you to answer the question under 'Monty's Challenge'. I mean this. Sit down and write an answer. Don't wait for my answer next week. If you have been reading my Weekly Questions and Answers for the last six months, you should be in a position to do this. Send your answer to my team at: askmonty@montyroberts.com

Why should you bother?
Because it will help you focus. There is probably a comparable question in your life that needs answering - or will be. If you can gain insight into how to go about answering a practical question that is loosely related to your problem, this exercise will help you answer your nagging question. Then read my answer. Then read my other answers at this link: [Ask Monty](#). The closest answer to mine each week will be awarded a DVD but, more importantly, you will learn! That's good for you! That's good for horses!

Check it out: Pat Roberts will be exhibiting some of her latest bronzes at The Living Bluegrass Exhibit in Kentucky this month. The show runs from September 10 through October 30. For more details, go to www.patrobertssculpture.com or visit www.galleryblexington.com

www.hrtv.com/calendar.asp with re-airings on the weekend.

Monty's Challenge

Do you think that being able to win a horse's trust and communicate with them is an art that can be learnt or a natural talent that you are simply born with? By which I mean, you can teach someone the theory on how to do something but being able to make a 'connection' with an animal which has a mind / personality of its own, is it really possible?
